### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: it is deemed novel and unobvious over the prior art of record to so perform a method of forming a fascia assembly that is to be mounted on a front or rear end of a motor vehicle as claimed, including molding a first material to form a fascia panel with a first connecting portion as claimed, molding a second material to form a fascia assembly component having a second connecting portion molded to the first connecting portion in a fixed, bonded, and interconnected relationship, such that the second material for forming the fascia assembly component includes molding and solidifying the second material to form a lamp receiving structure as set forth in claim 1, or such that the first material forms a panel including a grill receiving opening and the second material forms a grill opening reinforcement structure constructed and arranged to have a grill mounted thereto as claimed in claim 4, or such that the second material forms a collapsible impact absorbing structure constructed and arranged to be connected to a frame and to collapse upon impact as claimed in claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
